Experience

Full-Stack Developer (PHP), *Filip NET SRL* 02/2025 – 04/2026
Remote

- Developed and maintained a large-scale ERP platform for the tourism industry (karpaten.ro), supporting booking management, customer operations, and integrations with external travel services.

Full-Stack Developer (Laravel, Shopify), *Subscribfy* 04/2024 – 12/2024
Timisoara

- Developed and maintained a Shopify application built with Laravel, enabling merchants to manage customer discounts and store credits.
- Integrated a storefront widget into Shopify themes to display VIP membership benefits.
- Implemented interactive charts and data tables using Polaris Viz.
- Developed CSV export functionality using Laravel Excel.
- Built responsive frontend components for customer-facing widgets and administrative pages.

Full-Stack Developer (PHP, React), *OCEANO MERCADO SRL* 02/2023 – 03/2024
Remote

- Contributed to the development and modernization of Supreva , a multi-vendor eCommerce marketplace built with CS-Cart, PHP 7.4, and Smarty.
- Participated in the gradual frontend migration from Smarty to React and Material UI (MUI), while maintaining the existing PHP backend.
- Developed a feature to merge uploaded PDF documents.
- Implemented an approval and rejection workflow for buyer-vendor messages, enabling administrator moderation.

- Delivered frontend enhancements, bug fixes, and UI improvements throughout the migration.

Full-Stack Developer (Laravel, Vue.js), 10/2018 – 02/2023
Center of Information Technologies in Finance (CTIF) Chisinau
CTIF is a state-owned company providing technical support to the Ministry of Finance.

- Contributed to developing and maintaining government and enterprise web applications using Laravel and Vue.js.

Worked on the **Personal Cabinet for Administrators and Their Accountants** system:
- Integrated an external SOAP service to retrieve companies associated with administrators using their identification codes.
- Developed interfaces for displaying companies and their associated accountants.
- Implemented functionality to enable or disable service access for individual accountants.

Contributed to the **Prima Casa** government platform for mortgage compensation applications:
- Implemented role-based access control for applicants and operators.
- Developed and maintained application forms and workflows.
- Implemented application status tracking and management features.

Projects

Freelance Full-Stack Web Developer (Laravel, React) , *EpoxySlab - dev.epoxyslab.md*
- Developed a web catalog application using Laravel, Inertia.js, React, TypeScript, and MySQL.
- Implemented product, category, and order management functionality.
